Allowable Subject Matter

Claims 1-36, and 42-49 are allowed.

The following is an examiner's statement of reasons for allowance:

As to Claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious the second spectrometer comprising a second tunable optical filter and a second detector, the second tunable optical filter and the second detector adapted to detect a second tunable range of wavelengths, wherein the first tunable range of wavelengths is different from the second tunable range of wavelengths, in combination with the rest of the limitations of the claim.

As to Claim 19, the prior art of record, taken alone or in combination, fails to disclose or render obvious the visible bandpass filter is selectively tunable by adjusting the second separation gap; and a visible light sensitive detector positioned downstream of the visible bandpass filter to receive light passed by the visible bandpass filter, in combination with the rest of the limitations of the claim.

As to Claim 29, the prior art of record, taken alone or in combination, fails to disclose or render obvious the second bandpass filters are selectively tunable by adjusting the second separation gap; and a plurality of second light detectors positioned downstream of the plurality of second bandpass filters to receive light passed by the second bandpass filter, in combination with the rest of the limitations of the claim.

As to Claim 36, the prior art of record, taken alone or in combination, fails to disclose or render obvious a UV light spectrometer comprising a Fabry-Perot filter tuned to pass UV light and a UV detector blind or substantially blind to visible light, and a visible light spectrometer

Art Unit: 2877

comprising a Fabry-Perot filter tuned to absorb or otherwise block or substantially block UV light and a visible light detector, in combination with the rest of the limitations of the claim.

As to Claim 42, the prior art of record, taken alone or in combination, fails to disclose or render obvious the first detector being sensitive to the first wavelength of light but not substantially sensitive to the second wavelength of light, a second detector downstream of a second optical filter, the second optical filter substantially absorbing the first wavelength of the light, in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
